We are thrilled to invite you to attend a one-day boot camp on technology law, the CyberSpace Camp[®], featuring domestic and international faculty, which will be held on Friday, August 18th, 2017 at Pontificia Universidad Javeriana Cra. 7, 40-62, Bogotá, Colombia – Auditorio Jaime Hoyos. Attend this program, be inspired, and enhance your skills in the emerging area of technology law with some of the leading international technology lawyers.

The Andean CyberSpace Camp[®] program is a platform for experienced lawyers from across the world to interact with young lawyers and professionals from the Andean region, and share their insight and in-depth view on the implications of technology law and practice as it has developed in their respective jurisdictions. The program has been tailor made to address current issues facing technology law practitioners as well as make the event an interactive discussion. The program will be conducted in a classroom style, with faculty encouraging active interaction from the participants.

The CyberSpace Camp[®] is aimed not only towards young technology lawyers, corporate counsel, government officials, other professionals and law students who want to expand their knowledge, but also towards seasoned practitioners and professionals who may seek to refresh and expand their understanding of this exciting area of law, as it develops in the Andean region.

For more information, to register, and for any questions, contact: Víctor Ayalde and/or Gabriel Díaz Granados at centi@javeriana.edu.co

Register today before space runs out!
