

ITechLaw is pleased to announce the 2018-2019 Global Sponsors

NIEDERER KRAFT FREY

ITechLaw Global Sponsors are one of our greatest assets, and they are a key player in our successes all year. In return, they receive the highest visibility both at the conferences and throughout the year. Each sponsorship is customized to fit the needs of the sponsor. We are excited to have three brand new Global Sponsors this year, Gowling WLG, McCarthy Tétrault and Microsoft!

“Microsoft is proud to be a Global Sponsor of ITechLaw, and we believe in its mission to bring together the finest minds in technology law today. We are committed to contributing to the overall success of ITechLaw and its members.” – Dimitri Timmer, Microsoft

Global Sponsorships is very much about alignment of a firm with ITechLaw and creating unparalleled opportunities for international networking and the exchange of knowledge with experts and colleagues around the world. We are all stronger when we have meaningful global relationships and regularly grow our collective knowledge.

“There has never been a time when it has been more important to consider technology disruption and the accompanying challenges for law from a truly global perspective as now. McCarthy Tétrault is proud to be a global sponsor of ITechLaw because it provides the perfect forum for us to engage with leading technology lawyers from around the world in debating issues of societal importance and in finding solutions for our clients.” – Charles Morgan, McCarthy Tétrault

As Global Sponsors, these firms will be featured in papers and blogs on the website, as webinar sponsors, and as speakers at our upcoming conferences. The benefits extend to three conferences as well as provide year-round visibility. Just this year, leading technology lawyers from our Global Sponsors have discussed cutting edge issues at both the Asia Pacific Conference and the World Technology Law Conference; their topics of expertise include:

- Eric Barton, Seyfarth Shaw LLP (United States): *Cyber Vulnerabilities & Crime*
- Helen Davenport, Gowling WLG (United Kingdom): *Crypto Currency...How Blockchain has Changed our World*
- Clara Ann Gordon, Niederer Kraft Frey (Switzerland): *Data Based Business Models – Legal and Regulatory Governance*

- Charles Morgan, McCarthy Tétrault (Canada): *How Intelligent Are We?*
- Nick Tsilas, Microsoft (United States): *Move ERP Systems to the Cloud: Trends, Risk, and Strategies for Successful Deals*

"ITechLaw is renowned for its fantastic tech events all over the world, discussing emerging trends and unique legal issues for the sector. The ITechLaw Global Sponsorship program offers us unparalleled opportunities for international networking and a chance to share knowledge and experience, which has been very valuable." - Alex Brodie, Gowling WLG

We are grateful to our Global Sponsors and look forward to building stronger relationships in the future. For more information on our Global Sponsor program, please contact us.
